PROFILE CHARACTERISTIC

The profile "Civil Law" has its own qualifications of competitive and competent personnel with knowledge and skills in the field of rule-making, law enforcement and expert advisory activities that are in demand by the modern labor market, society and organization, capable of working effectively and successfully, in the first place, in the field of civil law and other private law relations.

PROGRAM ADVANTAGES

A fundamental feature of the curriculum of the profile "Civil Law" is the presence of the academic discipline "Digital Law". The course includes an overview of the legal problems of the functioning of the blockchain technology mechanism, the mechanism for protecting the interests of the parties when concluding smart contracts, the limits and grounds for the use of cryptocurrencies (bitcoin, ethereum, etc.), attention is paid to the legal problems of crowdfunding, robotization and the Internet of things. The specificity of modeling legal ties in the "smart city" system is considered. Provides information on general problems of legal regulation of the Internet.

Practicing and applied training within the framework of the basic department created at the State Labor Inspectorate in the Sverdlovsk Region allows graduates to have not only theoretical, but also practical skills.

In addition, the bases of practice are:

- Legal services of commercial and non-commercial organizations;
- Judicial bodies (magistrates' courts, courts of general jurisdiction, arbitration court, Statutory Court);
- Law enforcement agencies (Investigative Committee, prosecutor's office, police, etc.);
- Control and supervisory state bodies (State Labor Inspectorate, etc.).
- Legal profession; Notary.

The preparation of bachelors is carried out by teachers with extensive practical experience, using innovative technologies and analysis of practical materials and situations in teaching.

COMPETENCES OF THE GRADUATE

The program is aimed at developing general cultural, general professional and professional competencies in students, such as:

- the ability to participate in the development and implementation of regulations;
- the ability to represent the interests of individuals and legal entities in the judiciary, government agencies and public organizations;
- possession of the skills of preparing legal documents;
- the ability to provide qualified legal opinions and advice in specific types of legal activities;
- to ensure the observance of legislation by subjects of law;
- perform actions related to the application of legal norms;
- to carry out legal examination of documents.

AREA OF PROFESSIONAL ACTIVITIES

Successful development of the educational program of the profile "Civil Law" will allow graduates to carry out professional activities in the following areas:

- general lawyer (corporate lawyer, in house lawyer), legal adviser, leading (senior) legal adviser,
- head of the legal department of the organization,
- head of the organization, legal consultant, deputy (assistant) head for legal questions,
