CHARACTERISTIC OF THE PROGRAM

The program "Economic Security and Risk Management" is focused on training highly qualified specialists with the skills to effectively identify economic threats and risks, capable of solving complex problems of risk management and ensuring the economic security of business entities, regions, municipalities, individuals.

BENEFITS OF THE PROGRAM

The advantage of this program is due to the high demand for specialists with skills in risk management, minimization of economic threats and risks, development and implementation of recommendations for their elimination, modeling of legal situations in an unstable economy.

The educational process is carried out by teachers with a high theoretical and methodological level of qualifications (academic degrees of doctor and candidate of sciences), practical experience, as well as practicing economists and practicing lawyers. The teachers of the department, within the framework of the disciplines being implemented, must undergo training in specialized companies.
